Change Box Search Style

You can add search to any page using this code:

< form name="quick_find" method="get"
action="http://www.yoururl.com/advanced_search_result.php">
< input type="text" name="keywords" size="10" maxlength="30" value="" style="width:
95px"> <input type="submit" value="go">
< a href="http://www.yoururl.com/advanced_search.php"><b style="font-
size:8pt;">Advanced Search</b></a>
< /form>

To remove the box take out the **<tr><td>** at the beginning and the **</tr></td>** tags toward the end in

catalog/includes/boxes/search.php

If you just want to remove the heading cell comment out these lines :

search.php

/*$info_box_contents = array();
$info_box_contents[] = array('align' => 'left',
